REPLIED TO CLEVELAND

FAIRBANKS SPEAKS OF HIS LEADERSHIP

Says People Have Not Forgotten the Last Democratic Administration—Root Speaks to Republicans at Buffalo, N. Y.

Wheeling, W. Va., Oct. 22.—With Senator Fairbanks as the principal speaker, the Republicans of Wheeling, with the co-operation of others of their faith from western Pennsylvania and eastern Ohio, held their greatest rally of the campaign here this afternoon and to night. Fairbanks in the course of his address replied to Cleveland's New York speech of last night, saying in part:

"We will not find the wisest leadership among those who overturned the prosperity of the American people in 1893. We will be slow to accept the advice of the statesmen to whom the American people unfortunately put their confidence in 1892. There is no reason to believe that they are less fallible now than they were then. We should not be again deluded by either their promises or professions of alarm. What their administrations accomplished has not faded from our memories.

"Business men and workmen are liable to take their lessons in sound policies and wise administration from those who have successfully administered the affairs of government and not from those whose policies arrested enterprises and forced millions of workmen out of employment to wander in idleness. Prior to 1897 the country had possessed the natural resources she has possessed since, yet all our people suffered for four long years. As soon as Cleveland was voted out of power and McKinley was voted in, the whole aspect of affairs among us changed for the better and we have gone forward as never before in all our various activities.

"We seek commercial strength in order to give work and wages to our people. We seek to improve the lives of our people. Our national policy is not so much measured by the construction of industrial enterprises as by the erection of homes. There have been more homes built by the people since the Republican party was last entrusted with power than during any similar period in the history of the republic.

"We make no claims in behalf of Republican policies and Republican administrations which are not predicated upon actual experience and we make no charges against Democratic policies and Democratic administrations which are not fully justified by our past unfortunate experience."

FORMER SECRETARY ROOT.
Buffalo, Oct. 22.—Former Secretary of War Root was the principal speaker at the Republican meeting here to night. Root spoke of the issues of the campaign in opening and then took up the Philippine question, discussing the Republican idea of the subject.

"The Democratic attack has degenerated into a mere fusillade of fault-finding," he said. "Charges of extravagance without specifications, charges of disregard of the constitution with trivial specifications having just enough substance for lawyers to base an argument upon, but which, small as they are, the chairman of the Republican national committee and about the president, spurious interviews between the president and trust magnates, garbled extracts from the president's writings, false statements made out of whole cloth about what the president has said or written about farmers and about the labor question—these are the large grenades of the Democratic onset."

"Root went into the history of the Democratic party, saying there was such a party before the civil war. Since then, he added, there was 'only an opposition composed of incoherent and warring factions, agreeing upon no principle, faithful to no principle, believing in no principle and held together solely by the desire to turn the Republican party out of office and secure the office in its place. For forty years the controlling motive which has shaped Democratic platforms has been a desire to catch the public fancy of the moment, and their only consistent rule of action has been to affirm what the Republicans deny and deny what the Republicans affirm."

During Cleveland's second administration the party had an opportunity to show by practical test what it was, the speaker said, but it "had not the coherence and unity of sentiment to make governmental action possible. Widely as some of us differ from Cleveland politically we can recognize the admirable qualities which have made his career so distinguished. His courage, his sturdy integrity, his strong sense, his sincere conviction, contributed to inaugurate the Democratic experiment under the most favorable conditions. The result was a dismal and enormous failure. Upon the record of that four years' experience of esteem and admiration for Cleveland is a condemnation of the Democratic party. I know nothing more pathetic in the history of American legislation than the forest of appeals of Cleveland in his messages to Congress during the winter and spring of

1895 for legislative action to enable him to more readily to meet the exigency which confronted his administration. The Democratic congress turned a deaf ear to his appeals. The very virtues for which we admire Cleveland separated him from his party in the capital."

SPEAKER CANNON.
York, Pa., Oct. 22.—Speaker Cannon addressed a large audience of enthusiastic Republicans here to night. His speech was a defense of the Republican protective policy.

SUSTAINS GOVERNMENT.
Paris, Oct. 22.—By a vote of 355 to 237 the chamber of deputies to night approved the government's course in the matter of rupture of diplomatic relations between France and the Vatican by the recall of Ambassador Nivard. The vote was taken after a boisterous session. In the course of which a deputy called Prime Minister Combes a brigand and was restrained with difficulty from personally assaulting the premier.

REVIEW OF FIGHTING

Neither side Scored Victory After Battling for Ten Days—Battle May Occur Soon.

A review of ten days' fighting between the Japanese and Russians south of Mukden shows immense losses to both forces, but decisive victory for neither. The opposing armies are still facing each other, though a distance of several miles lies between them. Offensive operations on the part of the Russians are reported to have been made ten miles from Mukden and attacks are of frequent occurrence along the entire line. No really important aggressive movements, however, are announced. A very heavy engagement is considered certain to occur before many days to the southward of Mukden as a result of concentration in that vicinity of immense bodies of the opposing forces. The weather has become very much colder and great suffering among the soldiers is reported.

SITUATION UNCHANGED.
Paris, Oct. 22.—The Temps publishes the following from Mukden, dated Oct. 21, 5 p. m.:

"I passed the last two days at headquarters and along the Russian center. Before the door of Kuropatkin's quarters are thirteen Japanese cannon captured when the Russians took Lone Tree hill Oct. 16. The situation practically is the same as the opening of Kuropatkin's defensive campaign. The Russians have been unable to secure decisive results and the Japanese have been equally unable to do so. The losses are enormous. There are 30,000 men."

OYAMA'S REPORT.
Washington, Oct. 22.—The Japanese legation to day received the following from Tokyo:

"Marshals Oyama reports the investigation completed up to Oct. 22 regarding the Russian losses at the battle of Shukhe shows that there were about 500 prisoners and 10,500 dead bodies. Trophies of the battle were thirty-five guns, 6,000 shells, 3,574 rifles, 78,000 rounds of ammunition, etc. The enemy's dead were all buried with military honors. The Russian total casualties are estimated at 60,000. Further investigation is still proceeding."

ARE INACTIVE.
With the Russian Eastern Army Headquarters, Oct. 22.—Both armies remain practically inactive. The Russians have reoccupied Tantaluputzy. The Japanese hold a position on high ground sloping down the Shakhe river. There is constant outpost fighting and sniping battles are occasionally engaged in a duel westward. General Mischenko fought a brisk engagement Oct. 20. He reports progress and capture of guns. The two armies are receiving fresh supplies of ammunition. There is indication of early renewal of hostilities, with the Russians taking the offensive. The weather is cold.

A rough estimate of Russian losses during the recent battle places them at 45,000, of which 10,000 were killed.

The correspondent of the Associated Press who filed this dispatch was attacked by Chinese bandits while riding to join his corps.

WAR REPORTS.
Berlin, Oct. 22.—Prices on the bourse to day were weaker upon rumors the Russian Black sea fleet would pass the Dardanelles and accompany the Baltic fleet to the far east.

STRUCK BY TRAIN.
Cleveland, Ohio, Oct. 22.—W. L. Halsted and 14-year-old daughter were struck by a train while driving home to night and killed.

A VERY REMARKABLE REMEDY.

"It is with a good deal of pleasure and satisfaction that I recommend Chamberlain's Colic, Cholera and Diarrhoea Remedy," says Druggist A. W. Sawtelle, of Hartford, Conn. "Recently a gentleman came into my store so overcome with colic pains that he sank at once to the floor. I gave him a dose of this remedy which helped him. I repeated the dose and in fifteen minutes he left my store smilingly informing me that he felt as well as ever." For sale by all leading druggists.

PARKER TALKS ON TARIFF

ITS LEGISLATION AND RESULTS DISCUSSED

Claims the Work of Revision Should Be Undertaken by the Democratic Party—Other Campaign Speakers.

Esopus, N. Y., Oct. 22.—In a speech to visiting delegations to day Judge Parker discussed the tariff. He reviewed at great length the history of tariff legislation and its results. Discussing the effect of tariff duties, he said:

"A duty which does not raise the price of the article to the consumer falls of its object and is therefore needless for the purpose of protection. If it does artificially raise the price, then the consumer pays the difference, which, as Hamilton said, is the same thing as a bounty to the producer. These bounties are piling up mountains high. They are paid by the people. The beneficiaries having induced the government to shut out foreign competition, form trusts and combinations to stifle domestic competition. Not all the trusts and combinations are founded on the tariff, but most of them are. Their continued existence and their mode of self-perpetuation lead to the belief that the country is no longer governed by principles, but by interests. The most effective remedy that can be applied to excessive tariff duties is to reduce the tariff rates, while the remedy which can be effectively applied as against other combinations is to enforce the law. This remedy I pointed out in my response to the notification committee and also in my letter of acceptance. That the remedy can be made effective by an administration disposed to enforce the law cannot be doubted by any student of that branch of the law. It is not doubted by the trusts, who have good lawyers to advise them. And it is not questioned by the trusts that a Democratic administration will enforce the law. It is true, as all know, that excessive tariff rates have caused serious injury to the great body of the people. It has increased the cost of living and added to the price of nearly every thing the people must buy. This is known of all men. Their cry should be heeded. But it has been so long a part of the policy of the country that its reformation must be prudently undertaken so as to prevent an immediate revolution in existing conditions."

"The Democratic platform points out the true method when it demands 'revision and gradual reduction of the tariff by the friends of the masses and for the common weal, and not by friends of trusts and discrimination.' I pointed out in my response to the notification committee how a gradual reduction of customs duties may be accomplished without disturbing the business industries and I adhere to the method suggested. But the work should be undertaken at once in the interest of the whole people. And it can only be undertaken by the Democratic party. The Republican party will not attempt it."

OYATION GIVEN BRYAN.
Charleston, W. Va., Oct. 22.—An immense ovation was tendered William J. Bryan here to night. Bryan spoke for nearly two hours and in the course of his address touched nearly every issue of the national campaign. Bryan left to night for Wheeling.

BOURKE COCKRAN.
Kansas City, Oct. 22.—Congressman Cockran of New York addressed a great audience here to day. Cockran's speech was almost entirely devoted to the Republican policy of protection.

Chicago, Oct. 22.—Rogers McDonald, aged 22, is under arrest on a charge of attempting to blackmail H. N. Higginbotham and Milton W. Kirk, wealthy Chicago business men. McDonald is charged with having written a letter to Higginbotham demanding \$5,000. A similar one to Kirk demanding \$500. The letter to Higginbotham instructed the money be deposited in a hole in an unfrequented portion of the city. Detectives went to the spot indicated, placed a decoy package in the hole and arrested McDonald when he appeared. Higginbotham said he had received many letters making various threats, but had ignored them until one was received saying the writer intended to blow up his house and kill his family if the letter was ignored as the others had been.

PIRE LOSSES.
Bellevue, W. Va., Oct. 22.—The shops of the Coal and Coke Railroad company at this place, owned by ex-Senator Henry G. Davis, were completely destroyed by fire to day.

Quick Work of Fireman Prevents Collision on Illinois Central Railroad.

Springfield, Oct. 22.—While a south bound special Illinois Central passenger train, which was to meet the north bound limited at Farmersville, thirty miles south of Springfield, was dashing along at a high rate of speed to day Fireman Hamb, noticing no effort being made to slow down on approaching the meeting place, turned to remind the engineer, Ralph Hill. The fireman was horrified to see the body of the engineer lying on the floor of the cab. The fireman seized the throttle, brought the train to a stop and then rushed the train into the sidetrack just as the northbound passenger started past. The engineer was brought to this city in an unconscious condition. He had evidently been struck by the water spout of a tank at Riverport.

SHELL EXPLODED.
New Ulm, Minn., Oct. 22.—Fred R. Loser was instantly killed and his brother Ed seriously wounded by the explosion of a shrapnel shell which they were examining. These are the figures which tell of a decisive foot ball victory for Coach Stagg and his men and discouraging defeat for Coach McCormack and the Northwestern eleven. The score at the end of the first half was Chicago 14, Northwestern 0. By this victory Chicago secures a decided lead in the race for the western foot ball championship of 1904.

Fifteen thousand enthusiastic partisans of the two elevens saw the game. In the first half both teams played a kicking game. The two quarterbacks were pitted against each other and both were superb. The two quarterbacks were pitted against each other and both were superb. Northwestern's Johnson did some pretty work. In this half the two men played a kicking game.

Chicago won the toss and chose the north goal. Reuber kicked off for Northwestern on Chicago's twenty-yard line. Chicago returned the ball fifteen yards and the first three scrimmage. Northwestern held them and Eckersoll punted past the goal line. Northwestern kicked the ball on the fifty-yard line and Eckersoll returned it to the twenty-five-yard line, where he fumbled, but Chicago held the ball. After several little smashes it was on the twenty-yard line, where Eckersoll tried to kick again, but no field. He failed. Northwestern again kicked the ball out. There was a rapid exchange of punts with few intervening attempts at line play until Chicago got the ball on the Northwestern twenty-yard line and Eckersoll kicked goal. Northwestern then gave a spirited exhibition of straight foot ball. They succeeded in getting through Chicago's line several times in succession and were working the ball steadily up the field when time was called with the ball on Northwestern's fifty-yard line and in their own possession.

On the kick-off in the second half Chicago sent the ball to Northwestern's twenty-yard line and got it on a fumble. The ball was worked to the ten-yard line, where Reuber went through the right tackle for the first touchdown. Tray held the catch and Parry kicked goal. Soon after the ball was in play Tray went around the end for a forty-yard run and was forced out of bounds on Northwestern's twenty-yard line. Eckersoll made a quarterback run around Northwestern's left end for a touchdown and Parry kicked goal. Reuber was pushed and dragged over for the next touchdown after a series of steady line plays by Chicago. Eckersoll kicked goal. Chicago again worked the ball toward Northwestern's goal and a moment before time was called Eckersoll kicked a second goal from the field. Time was called with the ball in Northwestern's possession on its own forty-five-yard line.

ARE STILL FAR APART

ON QUESTION OF MARRIAGE AND DIVORCE

Matter Will Be Taken up by Episcopal Convention the Coming Week—Amendments Adopted.

Boston, Oct. 22.—At the close of the fifteenth day of the Episcopal general convention the bishops and deputies were still at variance on the question of marriage and divorce. The issue will be taken before the latter body next week for the third time during the convention, the bishops having declined to accept without amendment the compromise measure adopted by the deputies Thursday.

The bishops to day, by a vote of 20 to 23, amended the compromise so that the bishop of a diocese will not be required to issue a license for the innocent person even should court evidence be satisfactory, but will be merely called upon to declare in writing that in his judgment the case of the applicant conforms to the requirements of the canon.

The bishops also amended the clause referring to administration of the sacrament so that if any priest is in doubt as to the regularity of the marriage of any person he shall refer the case to the bishop. The compromise canon of the deputies obliged clergymen to administer the sacrament to innocent persons "if satisfied that he or she were really innocent."

The bishops to day concurred with the deputies in the adoption of an amendment by which special forms of worship for foreign congregations affiliated with the church are permitted.

OUR NOMINEES
Two Men Good and True Named for the House of Representatives from the 45 Senatorial District.

The contest over the question of nominees on the Republican ticket for the lower house of the state legislature is now settled and we know that the names are Charles Fetzer, of Sangamon county, and Frank J. Heintz, of Morgan county.

Mr. Fetzer is a well known and popular gentleman in Sangamon county and who will do well in the body of law makers for the state. He is secretary of the Modern Fraternities and transacts the business of that office with acceptance and ability, while his integrity is above question. He has held the office of treasurer of the city of Springfield and performed the duties of that responsible position to the full satisfaction of all concerned. The time is short, but he will do all he can in this county to make himself known to the voters, and he should have a cordial hearing wherever he goes for he is a man whose influence in the legislature would be for good.

Of Mr. Heintz is almost superfluous to speak. He is a native of Indiana, but has spent the greater part of his life in this county. His father is a man of first-class qualities and one regarding whom nothing can be truthfully said derogatory to his character and he has raised a family who have done him great credit. The son who has been nominated for the legislature has served the county twice as county clerk most ably. While he was there the books of the office were always in perfect order, everybody was treated courteously, the rights of the taxpayers were always consulted and the interests of all carefully guarded. His entire administration of the office was an honor to him and his party. In society Mr. Heintz is popular and none have a better reputation for rigid integrity, best of habits and general information. He has a choice library and is a constant student, being especially well versed in the history and politics of this state, on which he has a number of choice works. He is an Odd Fellow and a thirty-second degree Mason, and both orders have given him the highest honors. He is now serving his second term as eminent commander of Hospitaler Commandery and in Chapter and Blue Lodge he is an honored and valued member. He has an extensive acquaintance in this county and all over the state which cannot fail to be valuable to a member of the legislature. He is popular with all classes, for he tries to treat everybody right and win their esteem by proper methods. It will be an honor to the party and to the district to send such a man to the legislature, for his intelligence, ability, large experience as a parliamentarian, general knowledge of public affairs, unswerving honesty, ability to deal with all kinds of subjects will make him most useful. There will be no United States senator to be chosen during the next term of the legislature and no questions of great political importance to be handled and every argument points to the wisdom of choosing both Mr. Fetzer and Mr. Heintz at the coming election.

As Mr. Heintz is so well known in this county he will depend on his reputation and general acquaintance to secure him proper recognition at home and will devote most of his time to Sangamon county.

GOV. YATES AS A CAMPAIGNER.
Governor Yates is a campaigner. He has mingled so much with the people that he understands them and they have come to look upon him as one of them. He doesn't occupy the center of the stage. He gets down to the footlights and would step over them if he could in his desire to get near his audience. He is a consummate actor, one who runs the gamut of popular passions. His voice is clear and far-reaching and he has the habit of being high and low inflection. He is trained in the art of oratory, but does not aim at building catchy sentences. He often uses the conversational style, this seeming to be his favorite method.

Governor Yates might be termed a heart to heart talker. He seems at times to be addressing a certain group in his audience. Again he seems to direct his attention to a single individual. He does not stand in one place, but moves forward and backward on the stage. This attracts every one of his auditors to him and it is this that gives him such control over an assemblage. He is also earnest and there is apparent evidence of sincerity. He moves his hearers at will. He jumps from grave to gay. He relates anecdotes to enforce a point and deals in wit and invective. His periods are neatly turned and his peroration is masterful.

It is these methods, he they studied or the inspiration of the moment, which makes Governor Yates such a power on the stump. He creates enthusiasm and conviction. His speech was a powerful indictment of the policies of the Republican party. His appeal for the enactment of a general primary law showed him at his best. Indeed, the speech as a whole is a remarkable contribution to the Republican literature of the campaign.

REPUBLICAN RALLY

(CONTINUED FROM SECOND PAGE.)

gather as one country indivisible and interdependent upon each other for general prosperity. This was accomplished not by any party, but by the logic of events.

"The Union Pacific railroad connected two sections of the country on the east and west and we have gradually become nationalized. Then came the question of internal improvements, and here the Democratic party took the stand that it was not the duty of the general government to consider and care for the question of internal policy. The Republican party took the stand, however, that the central government of all the states should care for the individual needs of the several sections and divisions of the common country whose welfare concerned the whole people directly or indirectly.

DOCTRINE OF PROTECTION.
When came the doctrine of protection, which has done more to meet the individual and general needs of the nation than any other principle that has ever been declared. It was not a new principle as it was very old. Washington, Henry Clay and other statesmen of wide views and large foresight.

"When the Democratic party found that they had been wrong on the question of tariff only for an all out effort to get then a faction arose in the Democratic party that went to the other extreme and favored government ownership of the railroads and wanted to declare money legal tender that had only the stamp of the government that issued it behind it. The results that followed were that when the Democrats got into power in 1828 under Andrew Jackson, without any compromise forward and says Roosevelt it is unsafe, but let us see something he has done to the charge. Parker says the cost of the Philippine war was \$6,000,000 but the facts are less than one half that sum, and that is as near as he gets to the facts.

"The protection policy exists all others. Young man, don't you get the Democratic from trade wagon, but join the one which has done so much for the country. When I hear the gloomy predictions I think of the good old sons of 1793, country. Ally ourselves with the party of progress and let us go on to give liberty to many unborn. I believe a strong hand will strike down the enemy and build up the policy which has done so much for the people. (Applause.)

THE TARIFF.

"Now the cry of the Democratic party on the tariff is that they favor not free trade but a gradual reduction of the tariff. What would be the result under such a policy? Mr. McKinley said that if its standing, stability would disappear, as no business enterprise would know when the change in the tariff would affect that particular business.

"To have a candidate express so little confidence in the power and wisdom of a convention as to send a telegram regarding his views on a question is an admission without parallel. Heretofore parties have nominated men for what they believed before the convention. W. J. Bryan believed something and all knew it even if there had been no Democratic platform there would have been a Democratic platform. He did not try to get votes on a false issue and William McKinley expressed his ideas the same way, and it was a battle of ideas, as it should be.

"And now we come and ask all to look back over the past eight years. The issues have been clear and the Democratic party does not file a bill of particulars. Even from political opponents we have been struck by the force of the gold standard and now we declare for it. How can a man who left his party on the money issue in 1896 go with the party which tried to overthrow it? The gold standard is not irrevocable, it can be revoked by a future congress. What can we think of a candidate amending a platform. What can we think of Mr. Parker's shrewdness to the gold telegram? He does not say there that he believes in it, but does so in his letter of acceptance. Who taught him?

ROOSEVELT.
"Now for the other candidate. Does he have to be hunted up to have his opinions learned. He won his leadership on merit. He plausibly made known his views and took the common people into his confidence. In New York he strove for purity in public affairs and he punished men of all parties alike. He wrote a portion of our history which was highly commended by literary men in clear and simple language. He was named for governor of New York in obedience to the will of the people. He was later nominated for vice president for the same reason, and when the hand of death laid low the kindest spirit in the land there was a chance for the impulsive man to do something rash. He was simply plucked from the crowd to carry out the policy of William McKinley and he has done it. The charge against William McKinley was that he was nominated by Mark Hanna. Now we have a man over whom no man has any influence unduly, and he is denounced as unsafe. Policies must be followed out according to the conditions of the times and the people are pleased with the way things have gone forward in the history of another one president and succession of another without a hitch or a jolt.

THE PRESENT CAMPAIGN.
"I never saw such a campaign as this. No one cares to talk politics. All are busy with their business and all are relying on the continuance of the present policy of the government. We have had a peculiar year. Never before in the history of the world has one nation fought to free another. We succeeded by the development of our people and there was superior material for the founding of a republic which our forefathers handed on the shores of the new world.

"I hope old Morgan county will move along. It has been getting better from year to year. I hope the Republican candidates will have a hearty support and that all will vote their principles. Whenever an excitement has arisen the Republican party has met the situation and on those grounds deserves the support of all classes of citizens who seek the good of their country." (Applause.)

JUDGE J. G. THOMPSON, of Danville, was next introduced. It is not necessary for me to say much after such an able presentation of the issues of the day; for it is not necessary for me to speak long. The issue in this campaign which affects us all most is how to get the means to run the government and all business. The history of the last four years has shown the Democratic nominee will send a telegram saying he regards the tariff as irrevocable. Mr. McKinley was elected as a free trader and yet had to send to congress two messages for getting the tariff for the government. No one could say that the tariff was irrevocable. The tariff was changed, but now it is a free trade tariff. The tariff can be changed, but now it is a free trade tariff. The tariff can be changed, but now it is a free trade tariff.

held at 12 1/2c discount. Under such conditions Mr. Lincoln became president. The war cost six billions of dollars, but this has been largely met by a product of the war. The Republican party has paid the great war debt honorably and in a manner which has developed the land and planted wealth and immigration and central power. Mr. Buchanan turned the country over to Mr. Lincoln when it was heavily in debt and what has been the result? All know. We turned over to the Democratic full treasury and when it tried to avoid the tariff the Republican senate said no. In 1888 the Republican took the land again and up went everything the laborer needed, but in time the Democratic came into power and then the laborer found living was truly cheaper, but the fact was their labor was so much cheaper that they were worse off. Wm. Wilson, a Democratic free trade professor, proposed the Wilson bill and the government had to borrow for its expenses. How was it when the Republicans again gained control. Factories were opened and prosperity prevailed. How was it with Grover? We all know how many houses prevailed and general depression, only to be removed when the Republicans came into power. To day the Democrats call protection a robbery, which is very familiar. Mr. Parker kindly suggests that a Republican president would injure everybody. In one place the Democrats talk great praise in another the evils of protection, and in all places the rights of the people, but they fail to give the people any proof of their devotion to the masses. Under free trade the people suffered. Under protection the people were not ready to accept the lesson.

"They say that President Roosevelt is unsafe; pardon the thought and name anything he has done. The Parker-Hill agreement, without any compromise forward and says Roosevelt it is unsafe, but let us see something he has done to the charge. Parker says the cost of the Philippine war was \$6,000,000 but the facts are less than one half that sum, and that is as near as he gets to the facts.

"The protection policy exists all others. Young man, don't you get the Democratic from trade wagon, but join the one which has done so much for the country. When I hear the gloomy predictions I think of the good old sons of 1793, country. Ally ourselves with the party of progress and let us go on to give liberty to many unborn. I believe a strong hand will strike down the enemy and build up the policy which has done so much for the people. (Applause.)

READ THIS.

Jacksonville, Ill., Sept. 25, 1902.—Nearly three years ago, with a second attack of serious illness, I was surprised to learn that I had diabetes. Providentially I was led to procure a bottle of Dr. E. W. Hall's Specific for Kidney and Bladder Troubles, known as A TEXAS WONDER. Less than half of the \$1 bottle effected a complete and permanent cure. Consequently I believe it to be a medicine of very great value.

PLAY TIE GAME

Springfield and Jacksonville High Schools Battle for Supremacy Without Results.

Jacksonville high school and Springfield high school fought to a tie Saturday afternoon at the West Side park. There is a strong rivalry between the two teams and the game was one of the hardest fought of the year. At the end of two twenty minute exciting halves the score stood 0 to 0. The contest was marred by Hoyt, one of the Springfield players, getting his arm broken just above the wrist. He had broken away and was circling left end when he was tackled by King. Both were running at a tremendous speed and the impact threw both players on their heads. Hoyt was taken to Dr. Hargrove, who dressed his injuries. Being one of Springfield's best players and ground gainers he will be missed during the rest of the season.

Straight foot ball was played throughout the game. Only two punts were kicked, one by King, which netted at least seventy yards. Neither side could hold the ball any length of time and it changed hands every few minutes. Twice Springfield had the ball on Jacksonville's ten yard mark, but could get no nearer. Springfield outplayed the local boys several pounds. The visitors were in poor physical condition as their men were laid out repeatedly.

For the visitors Hoyt and Scott were the best. Scott made several long runs. For the locals King was the only person who could make consistent gains. He is the fastest half that has ever played on a high school team. Not only has he speed, but remarkable force. His defensive play is also good. Captain Richards put up a good defensive game. The lineup:

Springfield—Bum, left end; Vandergard, left tackle; Twist, left guard; Hiesenbein, center; Puttling, right guard; McRoberts, right tackle; Scott and Posten, right end; Hoyt and Scott, quarter back; Yates, right half back; Brown, left half back; Hanes, full back.

Jacksonville—Mullenix, center; Vickery, left guard; Funk, left tackle; Mendonza, left end; Bowen, left half; Warner, right guard; Wehrle, right tackle and right half back; Bowen and Hollenthal, right end; Wright, quarter back; King and Wehrle, left half back; Richards, full back.

SOLED FARM LAND.

Land belonging to the estate of Thomas O'Neal was sold at the south door of the court house by John Clark, master in chancery, Saturday afternoon and was bid in at \$129.75 an acre by A. C. Rice. The description of the land is as follows: West half of northeast quarter of Section 31, west half of southeast quarter of Section 30 and west half of east half of southwest quarter of Section 30, all in Township 16 and Range 8. The land amounts to 200 acres.

CURED HEMORRHAGE OF THE LUNGS.

"Several years since my lungs were so badly affected that I had many hemorrhages," writes A. M. Ake, of Wood, Ind. "I took treatment with several physicians without any benefit. I then started to take Foley's Honey and Tar and my lungs are now as sound as a bell. I recommend it in advanced stages of lung trouble." For sale by J. A. Obermeyer, City Drug Store.

JUSTICE COURTS.

In Esquire Amos Henderson's court John Brennan was fined \$25 and costs for keeping a disorderly house. Ben Novins was assessed \$10 and costs for being an inmate of the same. Dan Tubbs, E. S. Sargent and Charles Turner were each fined \$3 and costs for plain drinks and James Carver was assessed \$10 and costs for being an inmate of a disorderly house.

A. G. MURRAY'S APPEAL RE- FUSED.

As stated previously, A. G. Murray, one of the men against whom the judges of Sangamon and Morgan counties decided against in the contest for the Republican nomination for the legislature, took his case to the supreme court and asked for a writ of mandamus to compel the secretary of state to place his name on the ticket. The court decided that the action of the tribunal before which the case was heard was final and was a matter with which the supreme court had nothing to do, and the request for a hearing was denied. This seems to be a final disposition of the matter and leaves Messrs. Frank J. Heintz of Morgan county, and Charles Leger, of Sangamon, the regular candidates of the Republican party in this district.

BETTER THAN PILLS.

The question has been asked—In what way are Chamberlain's Stomach and Liver Tablets superior to the ordinary cathartic and liver pills? Our answer is—They are easier and more pleasant to take and their effect is so gentle and so agreeable that one hardly realizes that it is produced by a medicine. Then they not only move the bowels but improve the appetite and aid the digestion. For sale at 25 cents per bottle by all leading druggists.

WOMAN'S COLLEGE NOTES.

The members of the Woman's Club Round Table held their meeting with Miss Cole Saturday afternoon in her studio. The athletic association entertained Saturday evening in the gymnasium. Frolic and fun was the order of the evening. Refreshments were served.

Misses Annie Hodgson and Edna Rayhill and Fay Dunlap started their work in the school of Fine Arts this week. The college faculty greatly enjoyed the picnic last Monday at the beautiful home of Dr. and Mrs. Plumer. The day was perfect and the grounds seem more beautiful every year. The vote of thanks to Dr. and Mrs. Plumer was unanimous and hearty.

The Spectator went to Nichols park Saturday afternoon. The principal features of their entertainment were the gypsy costumes and bonfire supper.

An event of interest to those connected with the college was the marriage in East St. Louis on Wednesday evening, Oct. 19, at 8 o'clock, of Miss Emma Stewart and Carl Furman Williamson, of Middletown, Ohio. The ceremony was performed by Dr. A. Temple, an uncle of the bride. Miss Stewart was a teacher in the college for the past three years and was a favorite with all who knew her. The class of 1920, of whom she was the class officer, gave her an exquisite silver tea service as a token of their appreciation and best wishes. Those in attendance from the college were Dr. and Mrs. Barker, Miss Williamson and Miss Gowell.

COLLEGE OF MUSIC.

The next faculty concert will be a piano recital by Mrs. Franklin L. Blum Monday evening, Nov. 11.

New students enrolled the past week are Miss Edna Rayhill, of Mascoutah, Ill.; Eunice Hopper, Jacksonville.

Mrs. Stead and Miss Eldredge went to St. Louis Wednesday to hear Gullmunt in two recitals.

A number of students attended the concert given by the Ellery band Friday at termoon.

This troublesome disease, as we all know, is caused by impure blood. Impure blood is more often than otherwise the result of a torpid liver and inactivity of the digestive organs. Get and keep your digestive organs in good running order and the blood will purify itself. Then Rheumatism disappears. There is no treatment or remedy more effective in the relief and permanent cure of all ailments arising from a sluggish liver, like Rheumatism, indigestion, headaches, kidney troubles, nervousness, etc., than

ON THE GOLF LINKS

Springfield Team Here Friday—Winners of Local Trophies.

The match play for the various trophies has been progressing all week, gradually eliminating the less fortunate players until the finals have been reached in the following events:

In the championship flight G. H. Saurlock won the runner up trophy and now becomes the challenger of Marcy Osborne, for the possession of the championship cup for the ensuing year. G. M. Luttrell and Charles Sanders are left to battle for the first flight consolation cup. Rev. R. O. Post and Walter Bellatti will have it out the first fine afternoon for the second flight cup, while A. T. Capps and Lloyd Smith, Sr., will see who falls heirs to the second flight consolation trophy. Miss Kathryn Robertson and Marcy Osborne defeated Miss Elizabeth Robertson and George Saurlock for the mixed foursome prizes by 2 up and 1 to go. The match was hotly contested in the chill wind of Saturday afternoon.

All matches still unsettled must be played off the coming week before the club-house closes.

The Springfield team expects to come to Jacksonville on Friday or Saturday next for match game. They will probably bring ten or twelve men and some ladies and the team members are urged to prepare to give them a warm reception.

LECTURE RECITAL

Auspices Wednesday Musical Club.

As has been announced, Mr. N. J. Corey, the well known lecturer, organist and pianist, will give a lecture in Richard Wagner's "Parsifal" at the State Street Presbyterian church Monday evening, Nov. 1, at 8 o'clock.

The lecture will be illustrated with stereoscopic views and by use of the piano and organ.

Mr. Corey was the first person to present the Wagnerian subjects with the stereoscopic and has had many imitators. He was one of the organ soloists at the world's fair during the past summer.

The following is an expression of Corey's ability from the well known critic, W. F. Apthorp, in the Boston Transcript: "Mr. Corey's treatment of his theme, a subject by no means easy to handle in a way comprehensible to an audience not made of specialists was admirable in its clearness and in the comprehensive and exact knowledge it showed his power of stating facts and ideas in plain language, so as to make their gist immediately comprehensible, is conspicuous. Although he did not allow himself to use a single technical term in the lecture, this forbearance on his part did not in the least detract from the consciousness of clearness of his statements. The whole lecture was a fine example of what has been called literary packing, of multum in parvo. Best of all was the plan on which he laid out his lecture—his intelligent insight into which it was best to say and what was best left unsaid.

"His narration was not only clear and interesting, but absolutely correct, a rare virtue in those who attempt to give in detail that complex but perfectly coherent plot."
